

# Autograph version 3.3

**Best general tool for visualising maths - a 'must have' program**  
**Easy to use and great value**

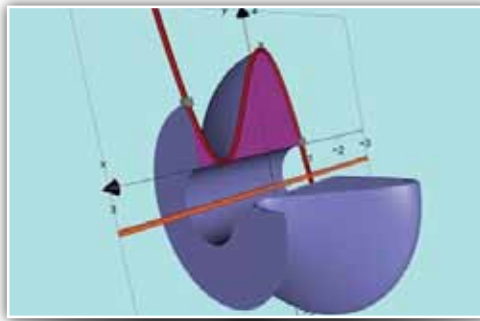

- Lessons are more exciting and effective with Autograph's dynamic, interactive and visual approach.
- 3-minute Tutorials from Year 7 to advanced calculus show you how.
- Intuitive interface for teachers and students.
- The only software with SLOW PLOT option: an essential tool for "what happens next?"
- Dynamic controllers for constants and animations bring maths to life!
- Whiteboard Mode provides large writing and thick lines so they can be seen at the back!
- Scribble and Rub-Out Tools belong to Autograph, so the writing does not disappear as it does on most whiteboards.

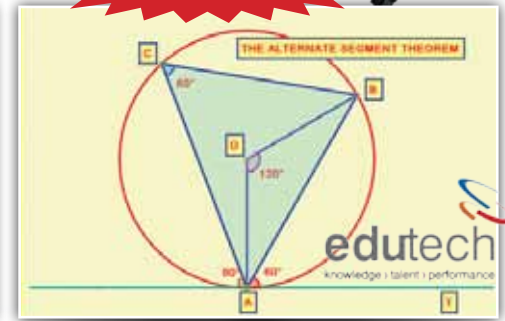

**Supported by  
EDUTECH INDIA**

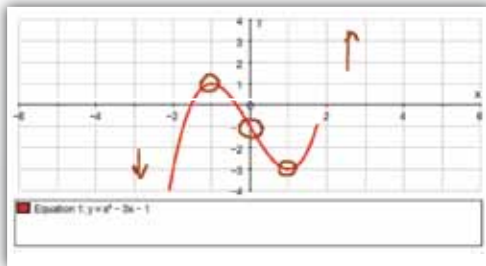

*Fitting a Normal Distribution to data*

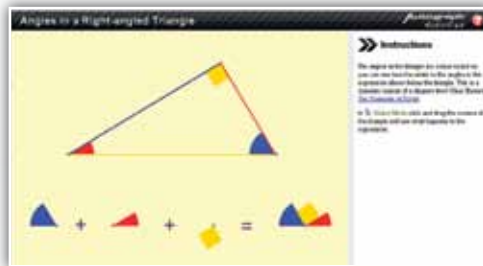

*Volumes of Revolution graphically brought to life*

*New angles (incl. right angle) and geometry features*

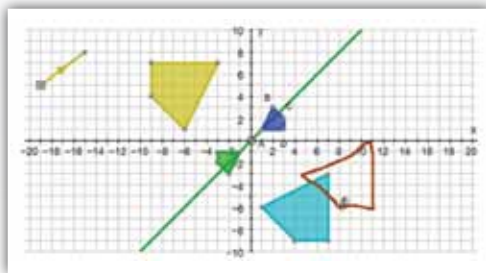

*Scribble tool and 'Slow Plot' help anticipation of what's next*

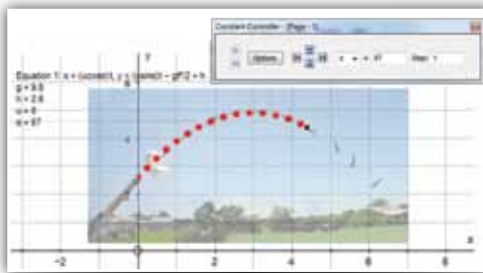

*Online Classroom-Ready 'Autograph Activities'*

**Perfect for CBSE classes 9-12  
IB standard and higher level  
and college mathematics**

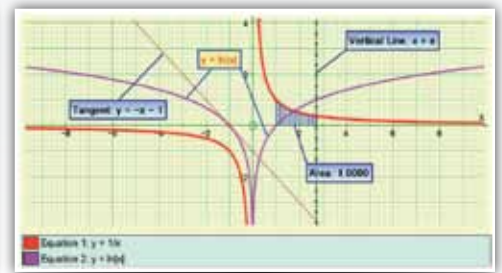

- Upgrade to version 3.3 and download classroom-ready activities - usable anywhere through your browser!

*Dynamic transformation geometry*

*Import photos and fit functions to curves*

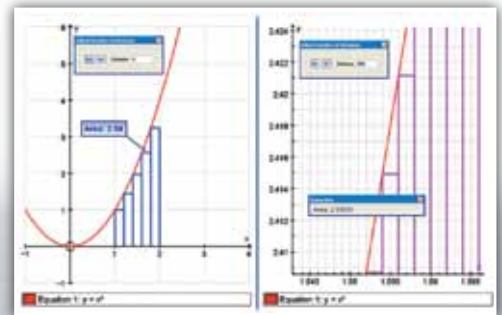

*Visualising the principles of Calculus*

*Illustrating residuals on a scatter plot*

*3D Vectors: Closest distance (2 lines)*

*Zooming in to explore integration*

Following Douglas Butler's India workshops in Dec 2015 and Jan 2016, prices are reduced by 25%!
